

Plug-In Partner Commitment Form

We want to become a Plug-In Partner. We urge automakers to go beyond popular hybrid vehicles and produce plug-in electric hybrids that combine electric fuel with a flexible-fuel gas tank. Plug-in hybrids will improve air quality, lower fuel costs and reduce dependence on imported oil.

By signing below, _____ [*Entity/Company Name*] voices its support for the commercial production and promotion of flexible-fuel plug-in hybrid vehicles (PHEVs).

By joining the Plug-in Partners National PHEV Initiative as a **Plug-In Partner**, we agree to the following:

- To allow the name of our business entity/organization to be listed as an official Plug-In Partner;
- To write and publish one or more news releases, articles, op eds, etc., about the Plug-in Partner National Campaign and the benefits of the initiative, including a reference to www.pluginpartners.org;
- To add to our Web site a link to www.pluginpartners.org in order to help spread the news of the initiative (if the organization has a Web site).

Entity/Company Name

Date

Address: _____

City/State/ZIP: _____

Phone: _____

Fax: _____

Contact Person: _____
