

PHEV Community Petition

Sign the petition below to tell U.S. auto makers to product plug-in Hybrid Vehicles!

Dear Automakers:

Plug-in hybrids are in our country's national interest because they will reduce dependence on imported oil, decrease greenhouse gases and other pollutants, and lower fuel costs.

If I could buy a vehicle that was cheaper to operate, cleaner, ran on domestic electricity, and I could buy it from you for a few thousand dollars more, yes I would positively WANT to plug it in to a 120-volt outlet.

Please make plug-in hybrid vehicles soon and manufacture them with flexible-fuel engines to optimize their fuel saving potential.

Your Customer

Please note: This petition will be passed on to automakers who commit to manufacture flexible fuel plug-in hybrid vehicles.

E-mail addresses will remain confidential.
